CLUB SIMCA FRANCE

For this 15th National Meeting, Club Simca France choose to accommodate you during four days in Marché aux Bestiaux in Parthenay.

History : The cattle market is born in the gâtinais region in the XII th century created its reputation at the end of middle age in Parthenay-le-Vieux. At this stage, fairs were a few amenities. This town has developed in XVII th century, The cattle market was displaced many times in the city :

- Place of Vauvert,
- Place of keep from XVIII th Century,
- Near the old rampart ditches, rejoined by sheep. Pigs and calves were in large places. Grain market go out of the city.

During revolution, this market was a small located fair, existed a few times by year.

Near 1800, the activity of the market get bigger and bigger, so it was displaced outside of the old Fortified walls, near 11st november place.

Parthenay get bigger and during all of the XIX th century, the town was waiting or every Wednesday, the bells ringing for the « weekly miracle »".

Then, agricultural industries grow up : creation of buildings, and cattle floats who allows the economic development of the area in spite of some tears in 1931-1934 and around the years 1937-1938.

To leaving the crisis, the market of Parthenay will find its place of primary market of west. But, this position makes the envious ones, and a very strong competition on quality goes between the town of Bressuire and that of Parthenay, in particular of 1935 to 1939.

After the Second World War, the cattle market become the primary market of France in cattle of butchery, is held in a space too much tightened to accommodate its many trucks, its congestions, its bullfights and the livestock wagons for Italy. It is why, on May 2nd, 1973, the cattle market is transferred in modern installations, with the fairground of Parthenay near slaughter-house. This last builds on the example of the market of Fougères - in Ille et Vilaine -, moves; outside of the city to avoid asphyxia of the center town.

Again the world is modernized and the market knows a very constrained evolution which goes to lose a third of his contributions. However, there remains an important market thanks to establishment of quotation of national reference.

The market of Parthenay accommodates each year one of the most important national competitions of cattle of butchery gathering more than 500 animals. (www.cc-parthenay.fr/economie/agro/marche.htm).

Arriving on the site get a specific entrance for participants and their vehicles and we will expose our dear cars regrouped by models. The site will be supervised night and day during the meeting.

You will find traditional « Village Simca », his shop and a piece market, the podium animation and hot meals will be useful in restaurant « Le Pélican » inside the boundary of the manifestation (**obligatory primary inscription*).

Many animations will decorate your stay : visit of the city of the tanners in the town of Lavausseau, visit of mining center in Faymoreau, visit and degustation of an breeding of snails and visit by night of the town of Parthenay (from 21h et 23h)(**obligatory primary inscription*).

Arrived on the place since Thursday May the 14th

**Timetable : Thursday from 10AM to 20PM, Wednesday and Saturday from 9AM to 20PM,
Sunday from 9AM to 16PM**
